PROJECTS

COVID-19 Data Analysis — MySQL, SQL, Tableau

- Queried, cleaned, and transformed global COVID-19 datasets using 50+ SQL queries (joins, aggregations, filtering)
- Analyzed infection, death, and vaccination trends across countries and continents to identify patterns
- Built an interactive Tableau dashboard to communicate insights clearly

BMI Data Application — Python, MySQL

- Developed a Python-based BMI application using pandas to validate user input and process health data
- Designed and integrated a MySQL database to store and retrieve application data efficiently

Sales Data Analysis — Microsoft Excel

- Cleaned and standardized sales and demographic datasets to improve data accuracy
- Used PivotTables, formulas, and filtering to analyze customer behavior and sales trends
- Built an Excel dashboard to summarize key insights

📁

EXPERIENCE

Pharmacy Technician – Licensed

June 2024 — Present

Walgreens, Oklahoma City, OK

- Enter and verify prescription, patient, and insurance data across pharmacy systems to ensure accuracy and compliance
- Process third-party insurance claims and resolve billing issues through detailed data review and documentation
- Support pharmacy workflow through administrative tasks, phone inquiries, and prescription fulfillment

Retail Cashier

January 2024 — June 2024

Burlington, Moore, OK

- Assisted 20+ daily customers with checkout while maintaining transaction accuracy
- Collaborated with team members to support store operations during high-traffic periods

🔧

TECHNICAL SKILLS

SQL (Primary)

MySQL; complex joins; subqueries; aggregations; filtering; data cleaning

Python

pandas; NumPy (basic); data manipulation; scripting; data validation

Data Analysis

Data cleaning; transformation; exploratory data analysis (EDA)

Visualization & Reporting

Power BI (basic DAX); Tableau; Excel dashboards

Excel

PivotTables; formulas; data cleaning

Languages

Fluent English; Native Bengali

🎓

EDUCATION

B.S., Business Administration –
Management Information Systems

August 2024 — Expected May 2027

Oklahoma State University, Stillwater, OK

Undergraduate degree focused on
information systems, analytics, and
business processes.
